

## GH2000 VARIABLE SPEED HEATGUN

### Compact Design Housing

Lightweight design (0.8 kg)  
reduces user fatigue

### Variable Air-Flow Control Dial

For precise control over the  
variety of applications

### Slide Switch Temperature Settings

For control between  
50-480°C and 50-600°C  
for greater versatility

### SCOPE OF DELIVERY

- GH2000 Heatgun
- Flat Wind Tube
- Round Wind Tube

### SPECIFICATION

|                       |                             |
|-----------------------|-----------------------------|
| Power Source          | Corded                      |
| Voltage               | 220V                        |
| Power                 | 2000W                       |
| Operating Temperature | 50 - 480 / 50 - 600 °C      |
| Air Flow              | 210 - 250 / 340 - 450 l/min |
| Weight                | 0.80kg                      |
| Length                | 240mm                       |
